

I am a support of K-Love which provides a family safe radio environment which is required for my children to listen to the radio. If K-Love would be dsplace by a LPFM boadcaster providing other programming my family and many other like ours would not longer be able to enjoy family frendly programming like that provide by K-Love in my area. The up lifting message from K-Love does great work in our area providing the ability to many listeners to get invovled and help those in need in our area. Please don't take by K-Love away and tive it to a LPFM operator.
